

Key Stage 2 Investigation:

FLOAT OR SINK?

Investigate which items in your home **float or sink**.
 Choose **5 different items** and investigate them using a deep bowl of water.

- Before you begin, predict what you think might happen with each item.
- Carefully place each item into the water and observe what happens.
- After you have identified if the item floats or sinks, give a scientific reason as to why this might have happened.

Object	Float	Sink	Explanation
 Prediction: Sink		✓	The coin is made of metal which is a heavy material.
